- 1) **Thanks everyone** for answering calls the last few days. We still have quite a few people out so you may be asked to do things you do not normally do.
- 2) **842** is in operation and seems to be doing just fine.
- 3) **Brush Gear:** We have a grant for new gear. It had to go to the Chief first then to the Board and then to the Membership for a vote. **Bill:** The way the Grant works is we pay for everything up front and then we are reimbursed by the Forestry Service...up to \$8400. He total cost is around \$13,000, a motion was made (Greg) to approve that amount and seconded (Doug) the motion was APPROVED.
- 4) **Vern:** As far as he knows the only light on the trucks not working is the rear directional lights on Tanker 840. IF there are any other s please let him know ASAP.
- 5) **Greg:** Protection on Scene- we have Bio-Hazard suits, booties and masks. ALWAYS use gloves. If you are going into a house where the patient is vomiting, bleeding or there are other bodily fluids present **SUIT UP**. When you come out of the residence scene, take off all PPE (gloves being last) and put it in a RED Bio-Hazard Bag (located in 842) and dispose of it in the Bio-Hazard can in the EMS bay.
